Sales overview

THE MOMENT

Every event is a moment worth keeping.

Guests want to look their best — and remember it. But the way most events handle photography leaves that value on the table.

Fleeting

The best moments happen once, then they're gone.

Generic

Filters and photobooths feel cheap and off-brand.

Hard to scale

A photographer can't give hundreds of guests a polished portrait.

Executive Power Suit · on location

WHAT IT IS

A premium AI photo experience — for every guest.

The AI Photoshoot Studio gives every attendee professional, identity-locked portraits — captured from a selfie, produced on-site, and delivered to a private gallery.

An experience

A brand asset

A lead engine

HOW IT WORKS

From a selfie to a gallery — in minutes.

01

Guests take a selfie

A quick scan at the event — no app, no friction.

03

AI creates the portraits

Polished, identity-locked images that look like them.

tfp.nyc

02

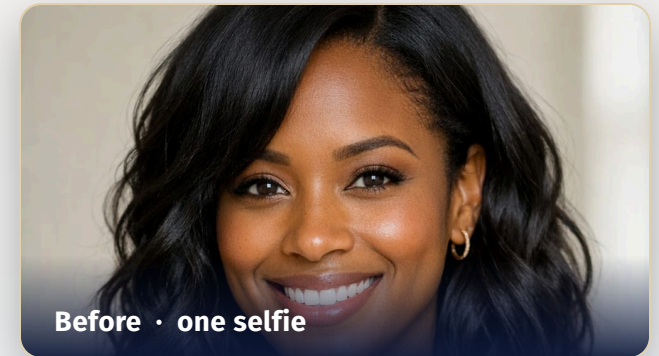

Matched to coverage

We match each guest to professional event photography.

04

Delivered to a gallery

A private, branded gallery to view, download and share.

What every guest walks away with.

Executive headshots

LinkedIn-ready portraits, on the spot.

Themed transformations

On-brand looks matched to your event.

Full event photography

The moments around the studio, captured too.

A private gallery

Branded, secure, easy to view and download.

Identity-locked likeness

AI that preserves who they are — no uncanny.

Fast delivery

Galleries land during or right after the event.

THE BUSINESS CASE

More than a photo op — a brand moment.

Guest delight

A premium takeaway guests keep and share.

Branded content

Every portrait carries your event's look.

Lead capture

Signups turn attention into an audience.

A reason to return

Memorable enough to drive repeat attendance.

WHY IT'S DIFFERENT

Not a photobooth. A production.

This is

- Identity-locked AI — a real likeness
- Professionally produced, start to finish
- Branded to your event
- Delivered fast, in a private gallery
- Scales to hundreds of guests

This isn't

- A generic filter or novelty gimmick
- A self-serve photobooth in a corner
- Slow, off-site post-production
- One photographer, a handful of guests
- Off-brand, forgettable output

PROVEN AT SCALE

The flagship: a finance leadership summit.

Delivered across a 3-day program — Hyatt Regency Washington on Capitol Hill.

ONE SELFIE IN, A GALLERY OUT

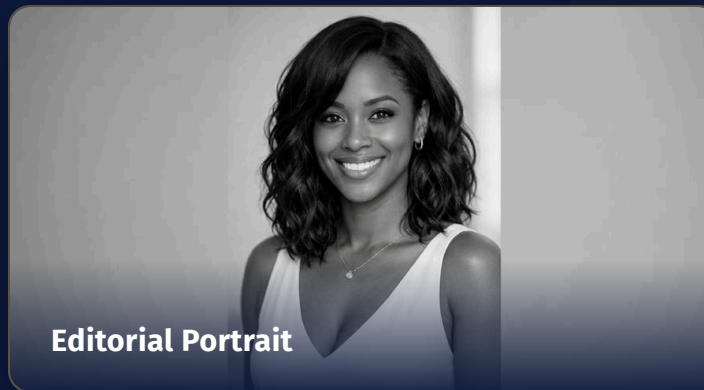

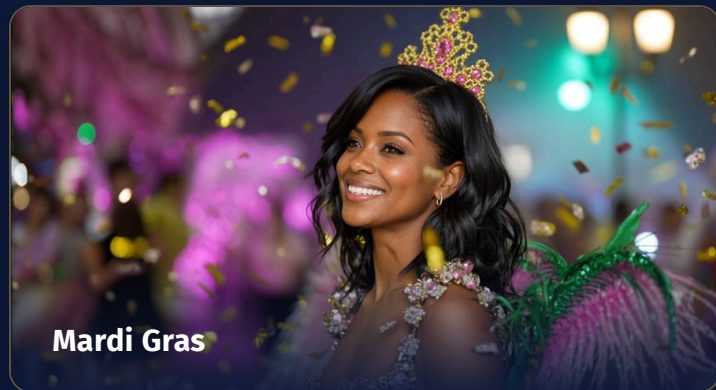

One selfie. Many scenes.

Nearly every portrait in this deck began as the photograph on the left. One source selfie, directed into scenes built for the event — the same person, recognisably themselves.

SIGNATURE LOOKS

Transformations guests love.

WHO IT'S FOR

Built for events that matter.

Corporate conferences

Executive headshots at scale, on-site.

Leadership summits

A premium perk that elevates the room.

Galas & fundraisers

Glamour looks guests share all night.

Brand activations

On-brand content, captured live.

Weddings

Guest portraits as a keepsake.

Venue partnerships

A signature experience that fills the room again.

THE PROGRAM

A turnkey studio, run by TFP.

On-site studio setup

We bring and run the experience at your venue.

Selfie-match system

Frictionless guest capture and identity matching.

AI generation pipeline

Identity-locked portraits, produced on-site.

Private galleries

Branded, secure galleries with download and share.

Event photography

Professional coverage around the studio.

Branded, per-event

Styles, logo and look tailored to your event.

HOW WE WORK

Tailored to your event, end to end.

01

Consult

We learn your event, goals and audience.

02

Custom plan

Styles, branding and scale — designed to fit.

03

Event day

On-site studio, run by our team.

04

Delivery

Private galleries during or right after.

Every program is scoped to your event — let's design yours.

WHY TFP

Event Media Architecture.

The AI Photoshoot Studio is the flagship AI experience from Turner Family Portraits — New York's event media partner across Weddings, Events, Schools, AV LIVE and AIP.
